ECHO

2022

**PRODUCT
CATALOG**

For five decades, ECHO has been empowering users to do their best work through its innovations. In 2022, we will hit an exciting milestone as we celebrate ECHO's 50th anniversary. Originating in Northbrook, Illinois, on November 16, 1972, ECHO began servicing the outdoor power equipment industry with high-performance 2-stroke engines and handheld products. As a pioneer in the market, ECHO revolutionized the landscape industry by inventing the world's first backpack blower, the PB-9 in 1975 plus the world's first handheld blower, the PB-200 in 1978 and is credited with many other world firsts in outdoor power equipment solutions ever since. From 2017 alone, ECHO has launched 109 new products including the world's most powerful backpack blower, the PB-9010, and North America's lightest gas-powered chainsaw the CS-2511T, and are both featured in the ECHO X Series lineup.

New for 2022, we are excited to introduce ECHO's eFORCE™ 56V platform to further support global environmental attention and to provide choice for our homeowner and professional end-users, with power one continues to expect from ECHO.

ECHO is focused on supporting its end-users. We understand the demands of the applications they perform and the benefits of their labor. ECHO is committed to providing high-quality products that address the needs of these users. Providing a variety of product options, price points, and continued innovative technology for our customers is key to ECHO's obligation to the OPE industry.

As we enter a year-long celebration of ECHO's origin, evolution, and character, we invite you to join us by participating in an opportunity to win a limited-edition PB-580T backpack blower. This blower is not for sale and can only be won through ECHO's national sweepstakes and local promotions. Scan the QR code for more details.

Thank you for 50 years of Powering On. And On.

POWER PRUNERS[®]

ECHO Power Pruners provide extra long reach for fast, easy and safe tree pruning while keeping your feet on the ground. Available in either fixed length or telescoping configurations, a Power Pruner can provide a reach of over 12 feet depending on the model (and even longer with optional extensions). The lightweight design and comfortable controls ensure maximum operator comfort. Heavy-duty gearboxes feature dual-sealed bearings and spiral cut steel gears for maximum lubrication, durability and cutting performance. An adjustable oiler delivers the right amount of oil, every time, for exceptional chain lubrication. The chain tensioning system improves cutting performance and extends bar and chain life. ECHO Power Pruners deliver commercial-grade performance and optimum tree care versatility.

PPF-225 POWER PRUNER

BED REDEFINER

Flower bed and mulch bed edges erode over time and need to be redefined to maintain a fresh, welcome appearance. The BRD-2620 cuts a crisp, beveled groove along the turf edge, leaving a professional, manicured finish. The replaceable six-finger cutting claw is manufactured from high-grade steel with specially designed carbide tips on each cutter for improved durability and performance that does the job 7x faster than a shovel!

2 year Commercial Warranty
5 year Consumer Warranty

BRD-2620 BED REDEFINER

The professional choice for redefining bed edges that erode over time.

- Replaceable, patented, 6-finger steel blade with brazed carbide tips for durability and performance

HEDGE TRIMMERS

For professionals who demand performance, ECHO hedge trimmers deliver and are available in single-sided and double-sided blade configurations, as well shafted models. ECHO hedge trimmers are tough, reliable and loaded with intelligent features like: throttle lock-out to help prevent accidental blade engagement, commercial-grade gear cases and cutting blades for the heaviest applications, and vibration-reducing engine mounts and padded handles for operator comfort. Every hedge trimmer uses ECHO-exclusive RazorEdge® blades, which consist of three sharpened edges for more efficient cutting. Three sharpened edges per cutting tooth start cutting before the tooth engages, giving you the most efficient cut possible.

WHEELED TRIMMERS

If you have large areas that need mowing and a traditional lawn mower is not an option, ECHO's wheeled trimmers can handle the job. They have the power to cut through dense grass and weeds with 5x the power of a handheld trimmer. The maneuverability works great in places a mower just can't go - along raised flowerbeds, retaining walls, fences and trees. Each trimmer is equipped with .155 in. diameter ECHO Cross-Fire® line so it will make quick work of even the thickest grass and weeds.

CHIPPER/SHREDDERS

A chipper/shredder is an extremely useful machine for reducing yard debris, like downed limbs or fallen leaves, into beneficial mulch. Two reversible chipping blades and eight reversible shredding knives quickly pulverize your yard debris into 3/4 in. pieces with the medium debris screen in place. Commercial landscapers can add chipping and shredding services to their customers for added value, while homeowners can save time and money by reusing the mulch to hold back weed growth and retain water around shrubs or flowers or to protect perennial plants over the winter.
