WORK HARD.

www.EshlemaniaTV.net

www.YouTube.com/c/EshlemaniaTV

FEEL GOOD.

Aches and pains aren't trophies – they're just barriers keeping pros like you from getting the work done. You know better than anyone that this business can be back-breaking, but that's all the more reason to partner with someone who has your back.

We're about helping you finish strong and feel good doing it. That's why we've built our equipment for unmatched comfort, durability and quality of cut. And we build you up with world-class customer support.

So you can get more jobs done, with more peace of mind, and have more energy to take on tomorrow.

Let the other guys keep suffering for the job.

It's time for you to finish one more day of hard work feeling good.

▶ SO HOW DOES IT WORK?

Our integrated suspension systems are engineered with carefully selected components that work together to provide you with a smooth ride on uneven turf. The cutting deck of the mower works in conjunction with the suspension system to provide a consistent quality of cut. These systems minimize shock to the chassis, and you, resulting in superior comfort, stability, traction and increased mowing efficiency.

The swingarm rear suspension system utilizes coil-over shocks and a shared pivot point for the rear wheels. This allows the rear wheels to move in unison with one another, enhancing stability and smoothing out the ride over uneven terrain.
(All suspension models)

REAR SUSPENSION SYSTEM

MULTI-PATENTED SUSPENSION TECHNOLOGY

S SERIES

A pivoting front axle combined with coil-over shocks allows the front wheels to adjust to uneven terrain. This smooths out the rough surface and improves traction.
(500S, IS 600, IS 700)

IS® SERIES

Proven independent suspension technology utilizes independent control arms and coil-over shocks that follow a slight arc through the full range of travel. They dampen the vibration of rough terrain – allowing mowing at higher rates of speed.
(IS 2600, IS 6200)

FOREFRONT™ SUSPENSION

The turf industry's most advanced independent suspension system utilizes four steel control rods that work with mower-specific coil-over shocks to ensure the caster wheel remains in an ideal vertical position and in contact with the ground. This virtually eliminates caster chatter for a smooth ride and straight mowing lines – even when mowing at full speed. (ISX™ models)

THREE FRONT SUSPENSION SYSTEMS

SHOCK DESIGN

NO PAIN. MORE GAIN. Why decide between getting your work done faster or feeling good when you finish? Ferris covers you on both. Our integrated suspension systems reduce the effects of uneven terrain, virtually eliminating shock to the chassis, and your body. And by allowing you to maintain speed while mowing, it increases your productivity by getting the job done faster. This lets you power through each day, knowing that you'll still feel good tomorrow.

▶ COIL-OVER SHOCKS

We use a coil-over type shock – similar to a car – that is comprised of two major components: a spring and a damper. The spring manages the up and down movement while the damper controls how fast the spring can move up or down. The progressive spring is adjustable and starts off soft, then stiffens when compressed, as the bumps increase in size. This feature delivers a smoother ride at faster speeds allowing you to do more.

▶ SHOCK OFFERING

A wide variety of shock sizes are used across the range. For example, the ISX 2200 uses a large sized shock that is great for damping large bumps at high speeds while the ISX 800 uses a medium sized shock that generates a plush ride in less demanding conditions.

▶ HOW LONG DO SHOCKS LAST?

Ferris offers a 5-year warranty¹ on all suspension components, but the expected life is significantly longer.

¹ See operator's manual or ferrisowners.com for complete warranty details. Refer to the engine operator's manual for engine warranty details.

iCD™ CUTTING SYSTEM

STAY A CUT ABOVE. Our exclusive iCD™ Cutting System offers next-level performance in a variety of conditions. We built in an extra wide opening to disperse clippings quickly and evenly. Our sloped nose design allows you to cut at higher speeds without sacrificing quality of cut. Your name rides on results – that's why we give you a cut that's second to none.

FEATURES

Extra wide discharge opening

Evenly disperses grass clippings and the rubber flexible discharge chute reduces contact damage

Two layers of 10-gauge steel

Are welded together to reinforce the top center portion of the cutter deck. A reinforced leading edge protects where the deck needs it most

Offset center point

Optimizes air flow and provides a larger discharge opening, allowing for mowing at higher speeds

2-BELT DECK* EXCLUSIVES

Custom 2-belt system

Two heavy-duty custom v-belts deliver less component strain for less downtime and easily handle extreme cutting conditions by reliably applying high horsepower

Deep grooved spindle drive pulleys

Deep grooves in the pulley provide for smoother engagement that's less likely for a belt to dislodge or roll from the pulley

3-Year Belt Limited Warranty†

* Select models.

† 2-belt decks come with a limited warranty of three years (36 months) or 700 hours, whichever comes first. This warranty covers parts & labor in year one and parts only in years two and three. See dealer for complete warranty details.

OIL GUARD™ SYSTEM BY VANGUARD®

LESS MAINTENANCE. MORE PERFORMANCE. You have enough going on each day. That's why we created a technology designed to keep you going. Our first-of-its-kind Oil Guard™ System from Vanguard extends maintenance intervals up to 500%. That means you spend less on oil and can cut up to 500 hours before ever needing an oil change. Get more time on the job, more money in your pocket and more mileage from your mower.

▶ **500 HOUR OIL MAINTENANCE INTERVALS**

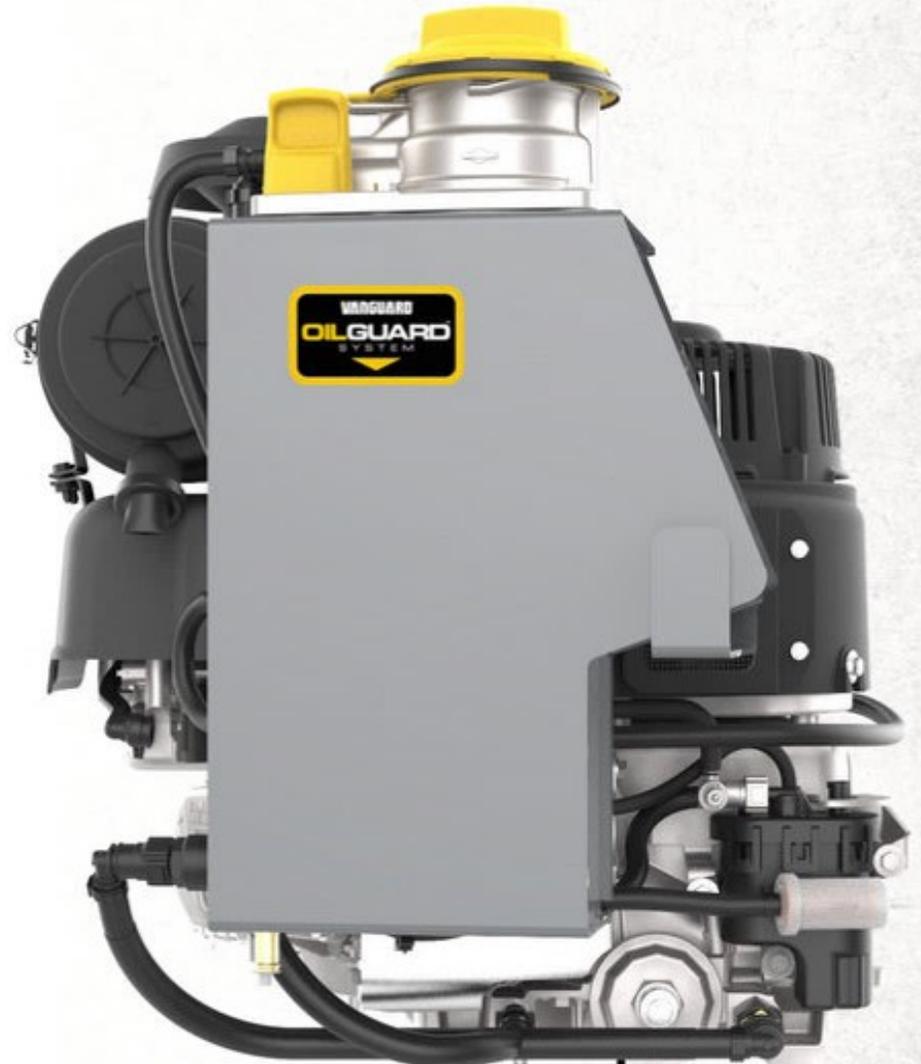

Less downtime means more time on the job.

▶ **60% COST SAVINGS**

Per season, per unit on oil maintenance*

▶ **CLEANER, FASTER, EASIER OIL CHANGES**

An easy fill cap and integrated oil filter make oil changes faster and simple.

* Cost savings based on oil maintenance with 100 hour interval versus Oil Guard System 500 hour service interval

▶ “...everything I was hoping for. Smooth cut, powerful engine, and a great ride.”

- Mike, MO

F60

Durability, affordability and power are packed into this compact zero turn that is loaded with commercial features and premium components. Designed to get you in and out of your jobs quickly and confidently, the F60 features a commercial transmission, fabricated mower deck, fixed frame and reaches speeds of up to 7 mph.

MODEL	ENGINE OPTIONS	DECK
5901895	Kawasaki® FX600V (19 hp**/603cc)	36" Fabricated

Available accessories:

Mulch kit, trailer hitch kit, LED light kit, service jack, magnetic deck pin

▶ **FABRICATED MOWER DECK**

Two layers of 10-gauge steel are welded together to reinforce the top center portion of the cutter deck and a reinforced leading edge protects where the deck needs it most

▶ **HYDRO-GEAR® ZT-3100® TRANSAXLES**

Dual-commercial transaxes with 7" cooling fans to repel debris

Accessibility

Quick removal of the floor pan provides convenient access to the top of the deck for easy cleaning and service

Easy maneuverability

The compact, small-frame is lightweight and allows for easy mobility in tight spaces

Fixed frame seat

Rugged, fixed design provides operator comfort through a mid-back seat with cushioned arm rests

Rugged twin 4 gallon fuel tanks

Total fuel capacity of 8 gallons of unleaded gasoline

Ground speeds up to 7 mph

Cover more grass in less time for increased productivity

NEW!

500S

The 500S zero turn mower is packed with essential features to deliver reliable productivity and performance. The differentiating 4 point suspension saves your body from the pains of continuous mowing. Plus, the commercial-like performance and extras like the LED headlight make for a confident mowing experience season after season.

MODEL	ENGINE OPTIONS	DECK
5902051	Briggs & Stratton® Commercial Series (25 hp*/724 cc)	48"
5902052	Briggs & Stratton® Commercial Series (25 hp*/724 cc)	52"

5902053	Briggs & Stratton® Commercial Series (25 hp*/724 cc)	61"

Available accessories:

Collection systems, mulch kit, trailer hitch kit, service jack, magnetic deck pin

PATENTED SUSPENSION

Equipped with swingarm rear and pivoting front coil-over shocks means less concern for uneven ground, and more focus on getting work done

COMMERCIAL GRADE POWER

Briggs & Stratton® Commercial Series engines are built with the ultimate in dust and particle filtration, an advanced debris management system and a beveled-up cylinder block structure

Convenient components

Confidently mow day or dusk with the standard integrated LED headlight, premium mid-back seat, and improved engine protection

Fabricated mowing deck

The fabricated 10-gauge steel mowing deck is durable and provides reliable cutting performance in a variety of conditions

Hydro-Gear® transaxles

Dual-commercial transaxles with 7" cooling fans repel debris and provide consistent power
48" deck: ZT-2800* 52" & 61 decks: ZT-3100*

Confident traction

22-inch rear-drive tires and large front casters ensure wheel contact for dependable traction in varying conditions

Ground speeds up to 8.5 mph

The suspension and high-powered components deliver a high-speed mowing experience without sacrificing cut quality

Foot-operated deck lift

An adjustable pedal changes cut height in 0.25" increments from 1.5" to 4.5"

* Power levels are stated gross horsepower at 3600 rpm per SAE J1940 as rated by Briggs & Stratton.

IS 600

The IS 600 is a compact zero turn with the productivity and comfort features landscapers are looking for. Featuring our patented suspension technology, heavy-duty Hydro-Gear ZT-3200™ Drive System and speeds up to 10 mph, this mower can tackle tight spaces while providing maximum maneuverability and productivity.

IS 2600

The IS 2600 mower builds on the Ferris zero turn legacy, offering diesel power with premium features and enhanced productivity. Featuring our iCD Cutting System, long-life greaseable cast-iron spindles and the patented suspension Ferris is known for, this machine truly performs under the rigors of professional landscaping.

MODEL	ENGINE OPTIONS	DECK
5901929	Yanmar™ Diesel (24 hp / 904 cc)	61"

Available accessories:

Mulch kit, trailer hitch kit, flat-free caster tires, LED light kit, deluxe high-back suspension seat, service jack, professional striping kit, Kenda Terra Trac drive tires, laser-edge blade sets, magnetic deck pin

▶ **EFFICIENT DIESEL POWER**

Efficient Yanmar™ 3-cylinder diesel engine provides lasting power in the most demanding of conditions.

▶ **PATENTED SUSPENSION SYSTEM**

Consists of adjustable rear coil-over shocks and independent adjustable front coil-over shocks.

iCD Cutting System

Specially engineered for the best quality cut and longer component life.

Hydro-Gear ZT-4400 transaxles

Dual-commercial transaxles with 8.3" cooling fans to repel debris.

Cast iron spindles

Greaseable cast iron 8" bearings.

24" turf-friendly rear tires

Commercial grade performance optimizes stability and traction.

Ground speeds up to 10 mph

Cover more grass in less time for increased productivity.

Diesel fuel capacity of 11 gallons

Twin rugged 5.5-gallon fuel tanks for less downtime to fill up.

^ Power rated by engine manufacturer.

IS 6200

Big jobs need a big mower and the IS 6200 was purpose-built to tackle challenges with power and efficiency. The 48 hp[^] CAT[®] turbo diesel engine provides dominating power and the suspension system ensures operator comfort. A 72" cutting width and speeds up to 12 mph allow crews to handle municipal and industrial properties easily.

MODEL	ENGINE OPTIONS	DECK
5901849	CAT [®] Turbo Diesel (48 hp / 1700 cc)	72" iCD

Available accessories:

Mulch kit, flat-free caster tires, service jack, professional striping kit, Kenda Terra Trac drive tires, laser-edge blade sets, magnetic deck pin

▶ CAT TURBO DIESEL ENGINE

Delivering a top speed of 12 mph, this market separating engine has a life expectancy double that of gas engines between 4,000 and 5,000 hours and is rated at 48[^] hp (the highest for a zero turn mower in this class)

▶ DIGITAL MONITORING DISPLAY

Interactive onboard display maintains and monitors the performance and operation of the mower for peak performance

Independent suspension system

Utilizes rear a-arms and front control arms with large adjustable coil-over shocks to minimize caster chatter and deliver a smooth ride

iCD Cutting System with 2-belt deck

Specialty engineered for the best quality cut and longer life

Hydraulic deck lift

Foot activated hydraulic deck lift system for easy lifting and lowering

Heavy-duty clutch & gear box

A hand-operated 450 ft lb Warner Electric clutch and a right angled Curtis[®] gearbox with dual 1" shafts harnesses more horsepower

Long lasting comfort

Comes standard with the next generation ROPS, suspension seat and IS front suspension for an added layer of comfort

Durable Hercules II spindles

Built to last Hercules II Cast Iron spindles for sustainable productivity

[^] Power is rated for 48 gross horsepower at 2800 rpm as rated by CAT.

SRS Z3X

Built to deliver superior traction and performance, the SRS Z3X raises the bar for stand-on productivity. With 52", 61" and 72" deck options and a pivoting front axle for extra grip on steep inclines, the Z3X increases efficiency without sacrificing safety or the trusted Ferris cut quality on even the most difficult properties.

MODEL	ENGINE OPTIONS	DECK
5901955	Kawasaki® FX850V (27 hp*/852 cc)	52"
5901957	Vanguard® BIG BLOCK™ EFI with Oil Guard (37 hp*/993 cc)	52"
5901951	Vanguard® BIG BLOCK™ EFI with Oil Guard (37 hp*/993 cc)	61"
5901953	Vanguard® BIG BLOCK™ EFI with Oil Guard (37 hp*/993 cc)	72"

Available accessories:

Mulch kit, metal grass catcher (52" deck), LED light kit, professional striping kit, Kenda Terra Trac drive tires (61" & 72"), laser-edge blade sets, magnetic deck pin

500 HOUR OIL CHANGE

Vanguard engines with Oil Guard System reduce maintenance time and costs by up to 60%[†] (Select models)

PIVOTING FRONT AXLE WITH RADIUS RODS

Robust front axle ensures that all four wheels hold their contact, enhancing comfort and quality of cut

Suspension Platform System

The operator platform is suspended by a coil-over shock with five adjustable positions, optimizing operator comfort and increasing productivity

iCD Cutting System

Engineered for the best quality cut and longer life

Hydro-Gear ZT-4400 transaxles

Dual-commercial transaxles with 8" cooling fans with a 3-year limited warranty[†]

Large Fuel Capacity

Generous 11 gallon fuel tank is centrally located for consistent balance, and the fuel filler neck is conveniently located on the side for easy filling

24" turf-friendly rear tires

Commercial grade performance tires optimize stability and traction to deliver up to 12 mph of ground speed

Locking 4-position speed control

No tools are required to set the speed control bar, in increments of 1-2 mph, for smooth operation to max travel speed of 12 mph

* Power levels are stated gross horsepower at 3600 rpm per SAE J1940 as rated by Briggs & Stratton.

** All power levels are stated gross horsepower per SAE J2723 as rated by Kawasaki.

† Cost savings based on oil maintenance with 100 hour interval versus Oil Guard System 500 hour service interval.

WALK

FW15

FW25

FW45

FW SERIES

This isn't the mower you grew up pushing. Ferris Walk Behinds are meticulously built to help pros make quick work of trim and slope cutting. Ergonomic controls built around you and a variety of cutting widths make these mowers a valuable secret weapon for any crew. And, durable steel construction ensures they'll keep working hard job after job.

2-YEAR LIMITED WARRANTY*

BEHINDS

FW15

The job isn't done until all the nooks and crannies of the property are mowed, including around trees and landscaping. That's why every crew needs a FW15 on the truck. This variable hydrostatic 32" commercial walk-behind is sturdy enough for the rigors of commercial work and is also maneuverable and easy to operate.

MODEL	ENGINE OPTIONS	DECK
5901737	Honda® GXV390 (10.2 hp/ 389 cc)	32"

Available accessories:
Mulch kit, cloth catcher

▶ ONE HAND OPERATION

Comfortable, single-handed operation with adjustable speed control. The handlebars are adjustable with four positions for operator comfort

▶ EASY CUT HEIGHT ADJUSTMENT

Spring assisted, single adjustment point lever for easy cut height adjustment from 1.5" to 5"

Commercial-grade steel timed mower deck

32" compact fully-commercial, fabricated, reinforced, steel deck with dual timed cutting blades

Adjustable handlebars

4-position adjustable handlebars and adjustable speed control for one-handed operation

Peerless transaxle & Hydro-Gear pump

Peerless transaxle with differential chain driven by Hydro-Gear RT-310™ pump and motor for smooth maneuverability

Cast aluminum spindles

Greasable bearings provide a longer usable life

13" oversized drive tires

Large pneumatic drive tires and lightweight front wheels provide high traction

Ground speeds up to 4 mph

FW25

Your crew will breeze through jobs with easy-to-use controls, electric start option, and 6 mph top ground speed on the FW25 walk-behind. With a choice of 36" and 48" deck widths, the FW25 fits most small sheds and trailers, while delivering superior control for navigating thick turf, surface imperfections, and hills.

MODEL	ENGINE OPTIONS	DECK
5901886 CC™ Controls	Kawasaki® FS600V (18.5 hp**/ 603 cc)	36"

5902016 CC Controls	Kawasaki® FX730V (23.5 hp**/ 726 cc)	61"

Available accessories:

Mulch kit, fabric grass catcher (48" & 52"), metal grass catcher (48" & 52"), service jack, LED light kit, professional striping kit, weight kit, sulky, laser-edge blade sets

ADDED POWER AND PERFORMANCE

Powered by a 28 hp* Vanguard 810 EFI engine with Oil Guard, reduce maintenance time and costs by 60%! with a 500-hour oil change interval (Select models)

COOL OIL FOR EFFICIENT USE

External oil coolers for the dual Hydro-Gear ZT-3400 transaxles reduce oil temperature by as much as 25%, plus a new quick fill system makes maintenance that much easier

Easier-to-use controls

The Centralized Control (CC) handle design comfortably places the operator's hands in the ideal position to access all in-demand controls (Select models)

Extra protection

The additional protection shields the 5-gallon gas tank, Oil Guard tank, and muffler from punctures and debris

Fabricated 10-gauge steel deck

Double top deck, overlap welded corners and double reinforced side skirts, steel reinforced leading edge

Single-lever operated deck lift

Quick adjust crank changes height variably from 1.5" to 5"

Momentary PTO switch

Blades automatically disengage and keep the engine running

Ground speeds up to 7 mph

Cover more grass in less time for increased productivity

* Power levels are stated gross horsepower at 3600 rpm per SAE J1940 as rated by Briggs & Stratton.

** All power levels are stated gross horsepower per SAE J2723 as rated by Kawasaki.

† Cost savings based on oil maintenance with 100 hour interval versus Oil Guard System 500 hour service interval.

COLLECTION

▶ FEATURES

TURBO-PRO™

The TURBO-Pro System is a lightweight blower assembly ideal for use with compact models in all cutting conditions throughout the entire season.

Generous 6" diameter outlet hose

Durable composite impeller housing with reinforced metal plate for high contact debris areas

Heavy-duty oversized drive and idler pulleys combined with long drive belt allow for cool running and maximum belt life

Curved steel blade impeller reduces noise

After initial installation, the quick attach design can be mounted or removed with no tools in a few minutes

TURBO-Pro Blower*
Width: 19"
Weight: 56 lbs
Impeller fin: 2"

TURBO-PRO™ MAX

This go-to system for landscapers acts as a lawn vacuum for a clean finish. It quickly mounts to the deck with tool-less stainless steel hardware. It is ideal for use in all conditions found throughout the season.

Extra wide 7" diameter outlet hose

Twice the air flow vs. Turbo-Pro for increased capacity on larger decks cutting at higher speeds

Rugged steel impeller housing designed for extended life

Heavy-duty oversized drive and idler pulleys combined with long drive belt allow for cool running and maximum belt life

After initial installation, the quick attach design can be mounted or removed with no tools in a few minutes

TURBO-Pro Max Blower*
Width: 21"
Weight: 62 lbs
Impeller fin: 4"

FAST-VAC®

The rugged impeller utilizes industrial-grade bearings, generating phenomenal air flow for use in heavy and wet cutting conditions. Its spindle-driven vertical turbo is narrower, allowing you to get in and out of tight places.

Extra wide 7" diameter outlet hose

Super rugged impeller rides on industrial-grade bearings to generate a phenomenal air flow

Commercial-grade idler and pulleys drive the vertical, spindle-driven turbo resulting in a very narrow profile for improved maneuverability

FAST-Vac Blower*
Width: 15"
Weight: 88 lbs
Impeller fin: 4"

ACCESSORIES &

► FEATURES

Mulch Kit

Select kits include dedicated mulching blades, baffles, hardware and instruction sheet.
Fits: all models.

Fabric Grass Catcher

Durable, fabric bag with hard plastic bottom; attaches quickly. Capacity: 3.75 or 3.25 bushels. (Select models)

Metal Grass Catcher

Rugged steel framed catcher has handles that make attaching and removing a breeze. Capacity: 4.3 bushels. (Select models)

FW15 Bagger

Durable, fabric bag with 7" hose and 90° inlet. Capacity: 2.5 bushels.

Trailer Hitch Kit

Will accept a 1/2" shank ball and comes complete with hardware. Fits: all zero turn models.

Flat-Free Caster Tires

Run all day with no flats. (Standard on select models)

ROPS LED Light Kit

Models are pre-wired for simple installation. (Select models)

LED Light Kit

Models are pre-wired for simple installation. Fits: IS 600.

Premium Suspension Seat

Suspension seat for optimal comfort. (Select models. Seat can vary depending on model)

Service Jack

Heavy-duty steel bracket and jack allow for easy and convenient access to under the deck. Fits: all zero turn models.

One Wheel & Two Wheel Sulky

Includes mounting hardware. Fits: FW25 and FW45.

Magnetic Deck Pin

Conveniently and quickly adjust the deck's height of cut with this magnetized and durable pin. Available in 3/8" and 1/2" pins.

Professional Striping Kit

Rubber flap system lays down grass to create patterns across the landscape. (Select models and deck sizes)

Kenda Terra Trac Drive Tires

Tire only, no rim. (Select models and deck sizes)

Laser-Edge Blade Sets

Hardware not included. (Select models and deck sizes)

BLOWERS

FB1000

FB2000

FB3000

FB SERIES

Step up your turf clean up game with the Ferris line of stand-on blowers to ensure you leave behind clean, healthy lawns. Designed to provide maximum air flow and power for effective lawn clean up and debris management, the Hurricane™ signature patented Dual Air Flow System™ splits the air-stream for deep cleaning and blowing the debris to the desired distance.

▶ “What I like best is the time that it has saved us.”

- David, Milwaukee County Zoo, WI

2-YEAR LIMITED WARRANTY - STANDARD USE¹ + 1-YEAR LIMITED WARRANTY - RENTAL USE¹

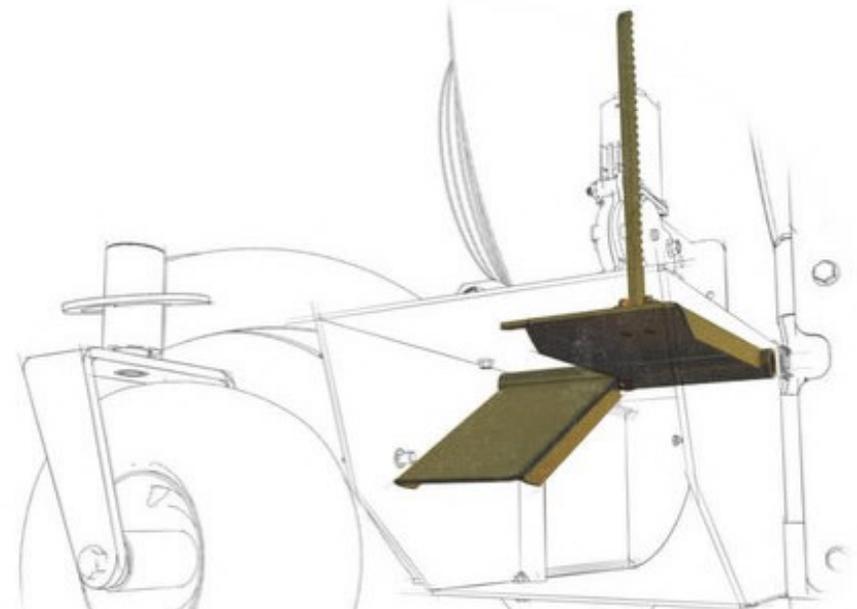

HURRICANE TECHNOLOGY

Ferris Hurricane stand-on blowers bring patented systems and a history of high-quality, time-saving equipment to an easy-to-use platform for powerful debris management. Whether it's for prepping surfaces to be paved, clearing a property of clippings, or blowing away a large number of leaves for fall, Ferris blowers are built to get the entire job done quickly and comfortably.

PATENTED DUAL DEFLECTOR AIRFLOW SYSTEM™

to split the air for optimal angle
and flow of cleaning

AIRFLOW SYSTEM

Fall leaf cleanup, grass clipping maintenance, or special job area management is a time-consuming job. Handheld and backpack blowers quickly hit their limits when you need to cover large areas or if the debris is piled high. Plus, they demand additional manual labor to get the job done effectively. Stand-on blowers provide you the efficiency and capability to get more done and get more money in your pocket.

Easily control the direction of airflow through left, right, or center (varies by model) air chutes for efficient cleaning

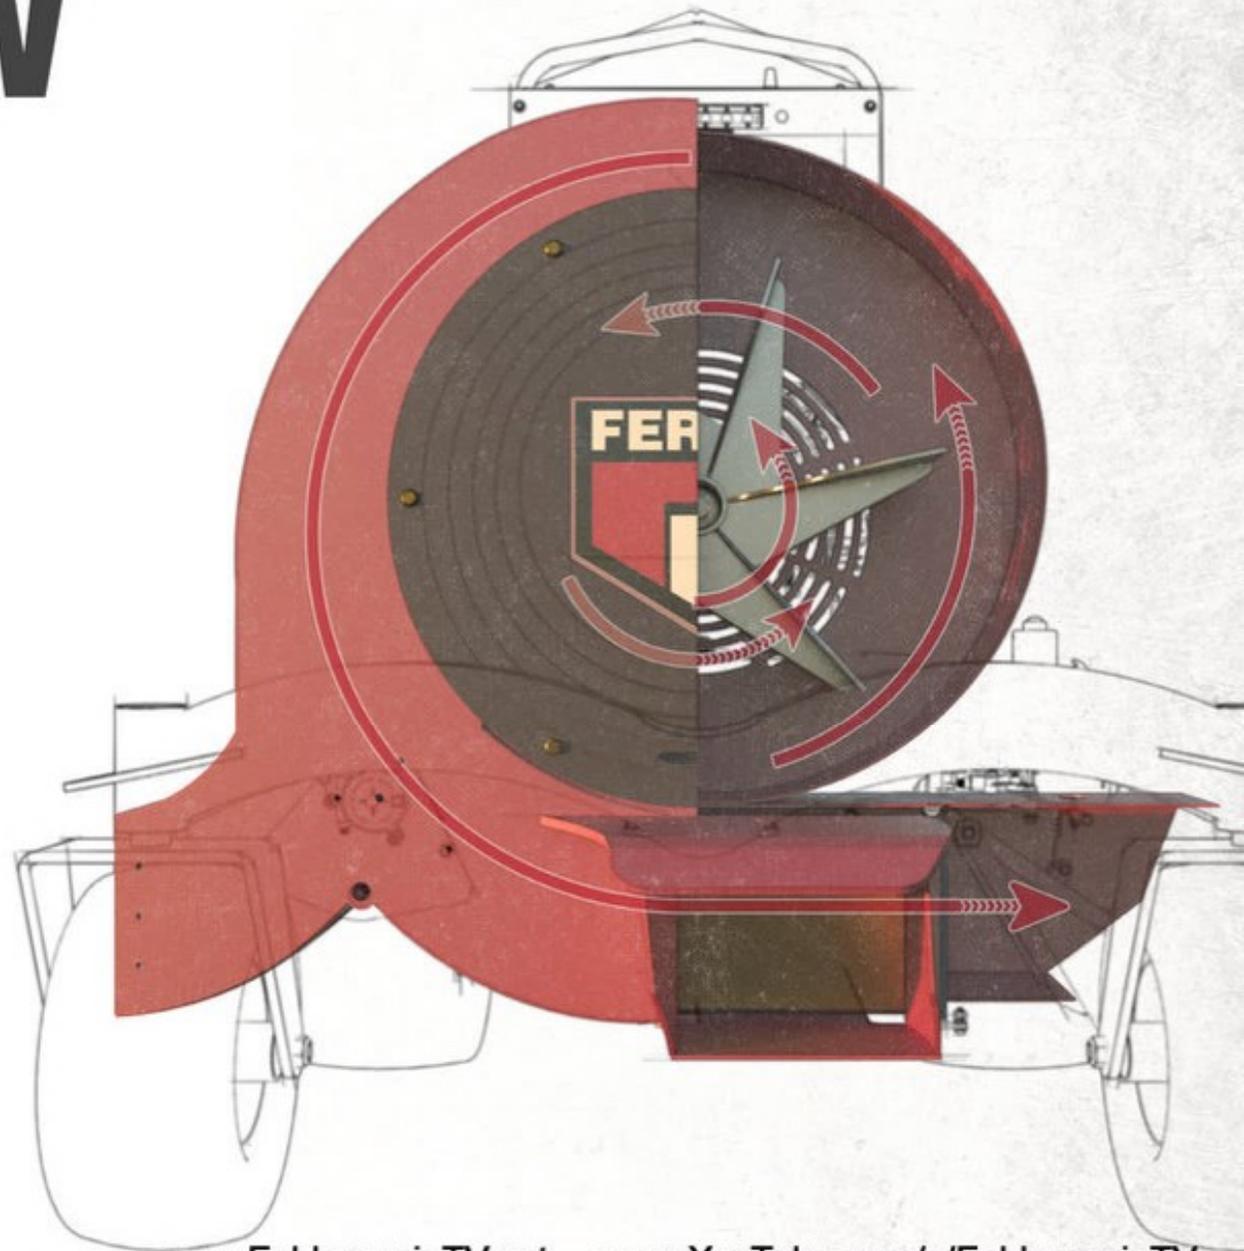

Air shut off on all chutes for non-disruptive travel from job to job

Integrated headlight for clear clean up (*select models*)

Zero turning radius for nimble control of the unit

Cushioned operator platform for sustained comfort

Built-in tie-downs for easy transportation

NEW!

FB1000 HURRICANE

The perfect addition to any growing lawn care fleet, the FB1000 Hurricane provides compact debris management without sacrificing air-blowing power. The 35.5-inch overall width makes it easy to navigate through gates and fit onto a trailer. A large impeller and air inlet delivers 3500 cfm of hands-free cleaning power.

ENGINE OPTIONS

Vanguard® V-Twin (18 hp*/570 cc)

PATENT PENDING FOOT CONTROL

Keep your hands on the controls and maintain your productivity with the easy-to-use and patent pending foot-driven airflow control. Features left and right airflow.

COMPACT POWER

The compact frame makes it easy to navigate jobs and still holds enough power with an 18 hp* Vanguard V-Twin engine and large impeller system.

Comfortable productivity

The fold-up operator platform is isolated from the bumps of the job through polymer platform bumpers.

Vanguard V-Twin engine

Delivering 18 hp* of reliable power, the Vanguard engine is built to last through the most demanding of jobs.

Convenient controls

Simple operator controls feature choke and throttle control, key-operated start, and ergonomic steering controls.

Confident traction

The 20" x 8 - 8 drive tires optimize stability and traction while the flat-free front caster tires deliver reliable control.

Adjustable air flow

Adjustable air outlets allow for the directed control of airflow to enhance the deep cleaning of debris.

Large, powerful impeller

The horizontal impeller and engine layout prevents clogging in heavy debris conditions while delivering 3500 cfm and 150+ mph of air cleaning power.

* Power levels are stated gross horsepower at 3600 rpm per SAE J1940 as rated by Briggs & Stratton.

FB2000 HURRICANE

The FB2000 Hurricane stand-on blower is designed for precise and effective debris management. With an airflow of 4500 cfm and air velocity of 165+ mph, fall leaf clean up and moving debris is easy. Air flow is changeable from the operator station with three directions - left, right and front making it easy to operate.

ENGINE OPTIONS

Vanguard® V-Twin (23 hp/627 cc)

▶ DUAL DEFLECTOR AIR FLOW SYSTEM™

The patented split left deflector system allows the operator to change the angle of the air flow to enhance the deep cleaning of debris.

▶ 4500 CFM AIR FLOW

Move debris quickly with powerful air flow and air speeds of 165+ mph.

Joystick deflector control

The joystick allows the operator full control of the air flow direction - forward, left and right. Pulling back on the joystick closes all deflectors for transport.

Quad Control Handle System™

This system provides automatic return to neutral, integrated operator presence, self-activating parking brake and travel direction control.

LED light in operator tower

Provide extra illumination when loading trailers or traveling at dusk.

Torsion-mounted front axle

Allows the wheels to remain in contact with the ground, improving traction on uneven terrain.

Product may vary from the image shown.

* Power levels are stated gross horsepower at 3600 rpm per SAE J1942 (including Oil Pump & Spillout).

FB3000 HURRICANE

The toughest debris-management jobs call for the FB3000 Hurricane, which is engineered for maximum airflow of 7500 cfm and air speed of 165+ mph. This unit features an innovative blower design which allows the FB3000 to pull air from both sides, increasing power and reducing noise.

VOYAGER

FS SERIES

We take care of you, so you can take care of your customers. The Ferris line of spreaders and spreader/sprayers allows you to provide a personalized treatment for each of your clients. No more one size fits all application of granular and liquid chemicals. These ride-on spreader/sprayers give you the flexibility to treat each lawn with the mixture it needs.

1-YEAR LIMITED WARRANTY- STANDARD USE* + 90 DAY LIMITED WARRANTY - RENTAL USE*

/SPRAYERS

HEALTHY LAWNS MEAN HAPPY CUSTOMERS

Like sunshine and water, grass and soil need fertilizer and other treatments to stay as beautiful as possible. Proper lawn treatment ensures the grass gets essential nutrients like nitrogen, phosphorus and potassium to thrive. Treated lawns are healthier, look better, and are more enjoyable. As a total lawn care specialist, you cut the grass and enable it to succeed, which means a happier customer and a more significant bottom line for you.

▶ SO WHY CHOSE FERRIS?

DIVERSE SOLUTIONS

Ferris provides time-saving and feature-packed lawn treating solutions in a variety of sizes and capabilities.

THOUGHTFUL DESIGN

100% stainless steel frame resists corrosive granular and liquid chemicals for longer usable life, while the thoughtful components make for easy maintenance and simple material loading.

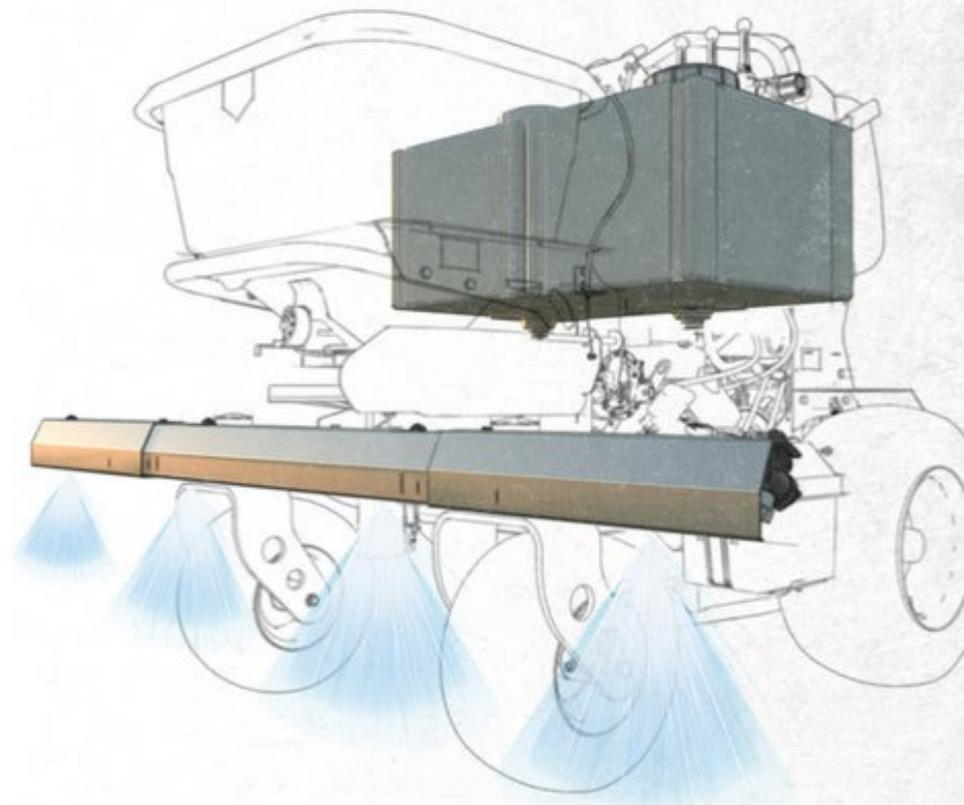

EXCELLENT MANEUVERABILITY

Empowered by our expertise in productive mowing, our turf care equipment is capable of navigating properties with ease with either a low-friction sulky or easy-to-use zero turn-like controls.

Ride-on spreaders make quick work of the granular application. The Ferris Rover and Rover XC can cover .6 and 1.2 acres, respectively, through their large material hopper. This material is then effortlessly and evenly applied to the lawn through the durable platter that spins with the machine's momentum.

SPREADERS

Combining granular spreading with efficient liquid application, stand-on spreader/sprayers are the best of both worlds. The Ferris Pathfinder, Venture, and Voyager provide increasing material capacity and coverage, providing unique options for the jobs at hand. The durable stainless steel sprayer booms offer reliable and consistent liquid application, while the sulky or zero turn-like drive style gives confident control.

SPREADER/SPRAYERS

PROUD TO DELIVER.

All Ferris products are made in
the USA with global materials.

ROVER

The Rover FS1100 and Rover XC FS1200 are rugged ride-on spreaders with a 35.5" frame for easy access through gates and other tight spots. The Rover series is designed for granular applications with components that resist the corrosive effects of these chemicals. A low center of gravity provides excellent performance on sloped terrain.

▶ SPYKER HOPPER

Pathfinder FS2100 has 100 lbs. granular capacity and Pathfinder XC FS2200 has 200 lbs. granular capacity

▶ HIGH LIQUID SPRAY CAPACITY

Pathfinder FS2100 has 12 gallons of liquid capacity and Pathfinder XC FS2200 has 16 gallons of liquid capacity

Coated transmission for corrosion resistance

Peerless 855 gear drive with two speeds forward (3.5 or 5 mph) plus reverse

100% stainless steel frame

Resists corrosion from the granular and liquid chemicals distributed by the unit

Low friction sulky

Low friction pivot point with 3/4" tapered roller bearings for smooth turning

18" turf-friendly front tires

18" x 9.5 - 8, RV antifreeze added for ballast and traction

Ground speeds up to 5 mph

Speeds up to 3.5 mph in low gear

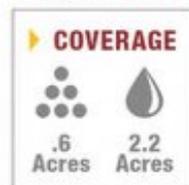

Fuel capacity of 2.5 gallons of unleaded gasoline

Centrally located fuel tank

VENTURE

You can't beat the efficiency of a zero turn ride-on sprayer/spreader. The Venture FS3100 and Venture XC FS3200 have a variable spray system with four spray widths plus a spray wand ideal for a variety of applications. Dual liquid spray tanks provide up to 2.2 acres of coverage and a stainless steel frame resists corrosive chemicals for added life.

Venture FS3100

Venture XC FS3200

MODEL	ENGINE OPTIONS	CAPACITY	SPRAY
5901754	Vanguard® V-Twin (18 hp*/ 570 cc)	100 lbs. granular	24 gal.
5901755 (XC)	Vanguard® V-Twin (18 hp*/ 570 cc)	200 lbs. granular	24 gal.

▶ SPYKER HOPPER

Venture FS3100 has 100 lbs. granular capacity and Venture XC FS3200 has 200 lbs. granular capacity.

▶ 24 GALLONS OF SPRAY CAPACITY

Twin 12 gallon tanks on both models

3-section breakaway boom

Boom arms fold in for access through gates and trailers

Hydro-Gear ZT-3100 transaxles

Dual-commercial transaxles with 7" cooling fans to repel debris

100% stainless steel frame

Resists corrosion from the granular and liquid chemicals distributed by the unit

Zero turn maneuverability

Maneuver in tight areas with zero turn functionality provided by Hydro-Gear transaxles

20" turf-friendly rear tires

Ground speeds up to 8 mph

Fuel capacity of 2.5 gallons of unleaded gasoline

Centrally located fuel tank

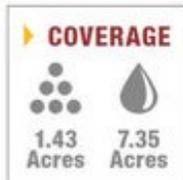

* Power levels are stated gross horsepower at 3600 rpm per SAE J1940 as rated by Briggs & Stratton.

VOYAGER

FS5250

High capacity, productivity, and profits. The Voyager FS5250 is the ultimate spreader/sprayer with industry-leading capacity including an innovative hopper that increase productivity by 20%. The pivoting front axle and low center of gravity provide superior handling on slopes, so crews spend more time on the unit than treating areas on foot.

MODEL	ENGINE OPTIONS	CAPACITY	SPRAY
5901756	Vanguard® V-Twin (23 hp/ 627 cc)	250 lbs. granular	80 gal.

▶ **3-SECTION BREAKAWAY BOOM WITH 12' SPRAY COVERAGE**

Two outward folding boom sections can be released by the operator and have bi-directional breakaway

▶ **INDUSTRY-LEADING CAPACITY**

Gain 200,000 sq. ft. of coverage per day over other units with capacities of 80 gal. of liquid, 250 lbs. of granular and molded side pockets carry an additional 100 lbs. of granular material

Six independently-supplied spray nozzles

Provides consistent spray tip volume and eliminates spikes and unequal tip pressure during operation

Robust drive system with zero turn maneuverability

16cc tandem pump and 475cc Parker wheel motors

100% stainless steel frame

Resists corrosion from the granular and liquid chemicals distributed by the unit

Iso-mounted operator platform

Cushions uneven terrain for a more comfortable operator experience

75' hose reel

Hose and spray wand allows the ability to treat hard to reach areas on foot

Direct coupled transmission and engine

Transmission direct coupled to engine eliminates the need for servicing a belt

Available accessories:

2 gal. foam marker, 7 gal. iso tank, headlight, spray boom light

WORK HARD. FEEL GOOD.

Briggs & Stratton: All power levels are stated gross horsepower at 3600 rpm per SAE J1940.

Kawasaki: Only Kawasaki Critical Power engines listed in this brochure have been tested in accordance with SAE J1995, verified by TÜV Rheinland Group, horsepower-rated in accordance with SAE J2723, and certified by SAE International. Torque ratings of these engines were not certified by SAE. Actual power and torque output will vary depending on numerous factors, including, but not limited to, the operating speed of the engine in application, environmental conditions, maintenance, and other variables.

Yanmar: Power rated by engine manufacturer.

Honda: Power rated by engine manufacturer.

CAT: Power is rated for 48 gross horsepower at 2800 rpm as rated by CAT.

Hydro-Gear® is a registered trademark of Hydro-Gear Inc. and is used under license.

Kawasaki® is a registered trademark of Kawasaki Motors Corporation.

Yanmar™ is a trademark of Yanmar.

Honda® is a registered trademark of Honda Motor Company, Ltd.

CAT® is a registered trademark of Caterpillar Inc.

Not all models available in California.

Briggs & Stratton has a policy of continuous product improvement and reserves the right to modify its specifications at any time and without prior notice. Products may vary from images shown.
